Thank you for choosing the Yale Touchscreen Z-Wave deadbolt lock. This document contains step by step instructions on how to setup and use your new Z-Wave deadbolt, including instructions so you can control your lock with the Protect America SMART Connect app via your smartphone or computer.

Important!
Before you follow any of the steps in this user guide and begin using your new lock, the Yale Touchscreen deadbolt must be installed onto your door first.

For assistance with the installation, please contact Yale Support at: 1-800-810-9473 between 8am-7pm EST, Monday through Friday. After the lock is installed on your door, then you can proceed with the programming below.

Handing The Lock

This determines which direction the deadbolt engages if installed on the right or left of door.

1. With a Phillips Head Screw Driver remove the cover and Insert 4 AA batteries provided. Lock will announce “Welcome to Yale Real Living”. Re-Install cover.

2. On the lock, touch the screen with the back of your hand or fingers to activate, lock will chime twice and illuminate numbered keys.

3. Enter 1234#, lock will announce: “Menu mode, enter number, press the # key to continue.”

4. Enter 3, lock will announce: “Advance lock setting mode, press the # key to continue.”

5. Press #, lock will announce the following:

   “Press 1 for Automatic Re-Lock,  
   Press 2 for Inside Indicator Light,  
   Press 3 for One Touch Locking,  
   Press 4 for Privacy Button,  
   Press 5 for Handing Lock”

6. Press 5, lock will announce: “Handing the lock, press the # key to continue.”

7. Press #, lock will announce: “Press the # key for handing the lock.”

8. Press #, lock will announce: “Handing lock completed.”
