Draw Your Fire Escape Plan

Walk through your home with your children.
Make note of all windows, doors and smoke alarms.

Plan Two Ways to Escape Each Room

Draw escape routes on the map of your house. Always plan an alternate route in case the primary route is blocked.

Practice Your Fire Escape Plan

Practice your escape plan at least twice a year, at night and during the day.

Have a Plan for Anyone with a Disability

People with special needs will need special attention. Consider moving a person with a disability to a ground floor room.

Get Outside and Stay Outside

Get out of a burning home as quickly as possible and do not reenter the structure.

Pick a Meeting Place Away from Your Home

Use a neighbor’s house, light post, stop sign or mailbox as a nearby meeting place.
